## FOR PROFESSIONAL FIRE AND SMOKE RESTORATION

**DESCRIPTION:** Grease Magic Thermo-Lock is highly effective for neutralizing odors caused by heavy smoke damage and structural fire damage.

### DIRECTIONS:

**FOR PROFESSIONAL USE ONLY. DO NOT DILUTE. APPLY ONLY WITH A THERMAL FOGGING DEVICE.**

1. Shake well before using.
2. Evacuate the treatment area including pets, food, and materials that may be damaged by petroleum distillates.
3. Turn off pilot lights and ignition sources.
4. Issue proper PPE, including respirators, to technicians.
5. Adjust temperature of treatment area: **Thermo Lock** works best when the temperature of the treatment area is above 55F.
6. 1 oz. of **Thermo Lock** will treat up to 1000 cubic feet.
7. Keep doors and windows closed for 30 minutes after application.
8. Ventilate treatment area before re-entering.

### PRECAUTIONS

Read MSDS before using. Wear eye and skin protection. Do not ingest. Do not atomize.

Corrosive to eyes. Skin irritant. May sensitize allergies.
